Response to Amendment

Claims 11 and 13-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Ansmann et al (6,228,831).

Response to Arguments

1. Applicant's arguments filed 10-24-03 have been fully considered but they are not persuasive.

Applicant argues that Ansmann et al do not teach the specifically recited pearlizing wax as presently amended.

The examiner contends and respectfully disagrees because Ansmann et al teach that said pearlizing compound(s) include many recited in the amended claim 11 (see claim 1).

Applicant argues Ansmann et al do not anticipate claim 20, because it does not contain a teaching of the use of a polyol ester to increase the viscosity of a pearlescent concentrate.

The examiner contends that it would have been inherent to the compositions of Ansmann et al to increase the viscosity of the pearlescent concentrate because each of the claimed components are taught and required by Ansmann et al for the purpose of producing a pearlescent composition, which is highly viscous according to the examples in Table I. Therefore, it would have been inherent to the composition of Ansmann et al to have an increased viscosity, absent a showing to the contrary.

Applicant is reminded that any showing must be commensurate in scope with the claimed invention.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
